EXPERIENCE

Waltr, Bangalore — *Lead Software Engineer*

July 2022 - PRESENT

Led the creation of a scalable serverless application, managing 500 million data records and handling 13,000 concurrent executions per second. Orchestrated the successful development and launch of a cross-platform software on iOS, Android, and Web, while actively contributing to firmware development and fostering a high-performing team culture centered around individual initiative and problem-solving.

1stZoom, Bangalore — Python Developer

February 2022 - June 2022

Contributed to solution development and product conceptualization, specializing in database design, data modeling, and REST API development. Successfully implemented token-based authentication for two applications, demonstrating a collaborative spirit by assisting colleagues in their projects.

EDUCATION

Don Bosco College, Maram — BCA

May 2018 - May 2021
